Dirt, rust, grease, dust and moisture must be removed from surface.

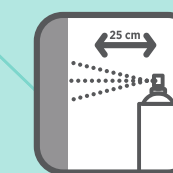

Areas not to be painted should be protected.

Before using, shake the can for two minutes. When applying, shake the can in certain periods.

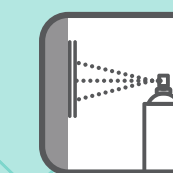

Make a spraying test on an appropriate surface.

Apply with a distance of 25-30 cm.

First, paint the surfaces from left to right, then from top to bottom.

Paint for a minimum two coats with thin layer.

Leave the surface to dry
